

LEGO CHALLENGE

5. Build A Tower

LEVEL UP:

- **Tower Twin:** Can you build a tower that's the same height as you?
- **Time Trial:** Build the tallest tower you can in a minute.

Build a tower using a selection of bricks.

- How tall can you build it before it topples over?
- Try building the bottom of the tower wider than the top, will this make the tower stronger?
- What happens if you put in openings for windows - will this make the tower wobble?
